ADOPT-A-PARK PROGRAM

*you can make
a difference!*

Adopt-A-Park Program

St. Paul Park, Minnesota

*you can make
a difference!*

Show pride in your community!

By adopting a park in your neighborhood, you can make a difference in the way your park looks and operates!

How it works...

The Adopt-A-Park program is a public service program that encourages volunteers, with the assistance of the Parks and Recreation Commission, to adopt a park in St. Paul Park, Minnesota for regular maintenance and cleanups, including picking up litter and planting flowers.

Volunteers identify safety hazards and freely communicate other issues associated with their designated park. The program is suitable for community groups, churches, scout and 4-H groups, students, individual citizens, etc.

Volunteers are encouraged to consider the size of their group before selecting a cleanup site!

Adopt-A-Park Duties

1. Schedule trash pickup outings during spring, summer, and fall.
2. Clean out BBQs and remove trash around picnic areas.
3. Schedule trash pickup with Public Works Department: (651) 459-3730
4. Notify the Public Works Department of graffiti issues.
5. Be available for special projects, as needed.

INTERESTED IN PARTICIPATING?

Submit a letter of interest to the Parks and Recreation Commission OR attend a Parks and Recreation Commission meeting! The Commission meets at 7:00 p.m. on the second Thursday of every month at City Hall and anyone is welcome to attend!
